

## MODERN COACH FACTORY, RAEBARELI

Press Release

09.04.2019

First rake of 24 Coaches of the financial year 2019-20 was flagged off from MCF by General Manager, Sh. Suneet Sharma with Sr. Tech. Sh. Ramker Singh.

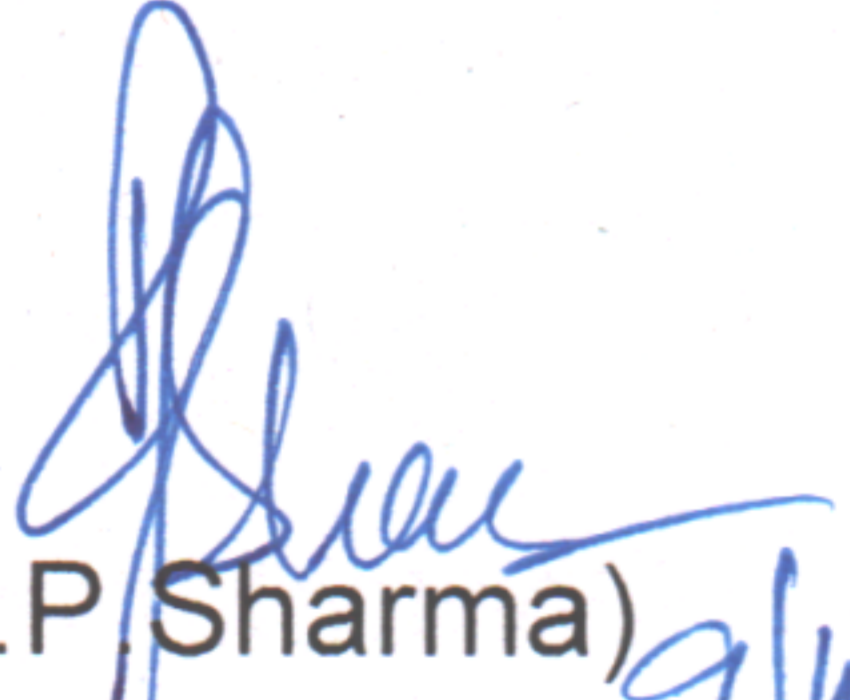

This will replace the existing rake of Brahmaputra Mail 14055/56 running between Dibrugarh and Delhi.

Earlier, coaches manufactured in MCF were dispatched as manufactured and as available. Coaches manufactured and allocated to zonal railways were joined to make optimum train length with 22 or 24 coaches and were dispatched to railways. The coaches sent, were then placed in rake form at train originating station involving lot of shunting.

To eliminate this problem of rake formation at train originating busy stations, it has been decided by the Rly. Bd. to dispatch coaches in the same sequence and composition as placed at present in earmarked train which will be replaced with LHB Coaches.

This first rake has been dispatched to NFR Guwahati. MCF will dispatch 45 such rakes with earmarked train numbers.

The flagging off ceremony was attended by PCME Sh. Anoop Kumar, CAO Sh. Alok Kumar, PCMM Sh. Shree Kant Rai besides others senior officers, supervisors and staff.
